

# Corporate fact sheet

© 2025 Autodesk, Inc. All rights reserved.

Autodesk is changing how the world is designed and made. Our technology spans architecture, engineering, construction, product design, manufacturing, media, and entertainment, empowering innovators everywhere to solve challenges big and small. From greener buildings to smarter products to mesmerizing blockbusters, Autodesk software empowers innovators to design and make a better world for all.

But we're restless to do more. At Autodesk, we don't believe in waiting for progress, we believe in making it—by combining technologies, unleashing talent, unlocking insights, and empowering our customers to find solutions to the challenges we face today. Our software provides customers with the right tools to work, the ability to think flexibly, and the power to transform what actually needs making.

Autodesk is committed to advancing a more sustainable, resilient, and equitable world with our technology, philanthropic investments, education initiatives, business operations, and employee programs. We donate software to eligible nonprofits, startups, and entrepreneurs that are using design and make approaches to accelerate positive outcomes across industries. We're also equipping the next generation with the skills they need to succeed in Design and Make jobs of the future by providing free access to Autodesk's industry-grade software to students and educators around the world. Through skills training, lifelong learning programs, and industry insights, Autodesk is helping build a community of future innovators from the ground up.
